TIKTALK BUILDER TUTORIAL- How to Add a Multiple Sites

With the SoftwareStore Builder app, you can create multiple blogs/sites in just one go.

To get started:

Click on the Create Multiple Sites then click Create.

The screenshot shows the SoftwareStore Builder app interface. On the left is a sidebar menu with the user profile 'Pandey' (ONLINE) and options: Dashboard, Get Host, Create Single Site (with a '+' icon), Create (highlighted with a red box), View, Create Multiple Sites (with a '+' icon), Add cPanel, Add Envato, Client Account, Team Member, ProMachine, and Tutorials. The main area has three tabs: 'Hosting Details & Site Details' (active), 'Niche Selection Envato Category', and 'Choose Theme'. Under the active tab, there are sections for 'cPanel and Monetization Details' and 'Site Details'. The 'cPanel and Monetization Details' section includes a 'cPanel' dropdown menu (showing '-select-'), a 'Site Path' text input (containing 'envato100'), and an 'Envato User ID' dropdown menu (showing '-select-'). A yellow warning box states: 'Please make sure that the directory is empty otherwise this will overwrite the existing files'. The 'Site Details' section includes a 'Site Title' text input (containing 'Envato'), a 'Site Username' text input (containing 'user'), and a 'Site Password' text input (containing dots). A green button labeled 'Proceed to Niche Selection' is at the bottom right. A blue chat bubble icon is also visible in the bottom right corner.

Fill out your Hosting and Domain Details

- Select your Cpanel account which you would like to set up the SoftwareStore Builder site to.
- **Site Path**- Select the path for your installation folder. This will be the URL of your SoftwareStore Builder site. In order to use main domain, leave this empty.
- **Envato User ID**- enter your Envato user ID
- **Site Title**- Give a title to your blog
- **Site Username**- Give a username to your WordPress blog. This would be required to log into WordPress admin Panel
- **Site Password**- select your preferred password. This would be required to log into WordPress admin Panel as well.

Once all has been filled out, click on **Proceed to Niche Selection**.

SoftwareStore BUILDER

Enter your site details.

- Enter your site name/title, keyword, number of posts, meta keyword (meta keywords to be added in your blog), meta description (meta description to be added in your blog). Please note that the videos on the site will be based on keyword entered, whereas ads displayed around the site will be based on the categories you choose.
- Also select Mode- Select the video category from which you would be fetching video.

Once done, click on **Proceed to Theme**.

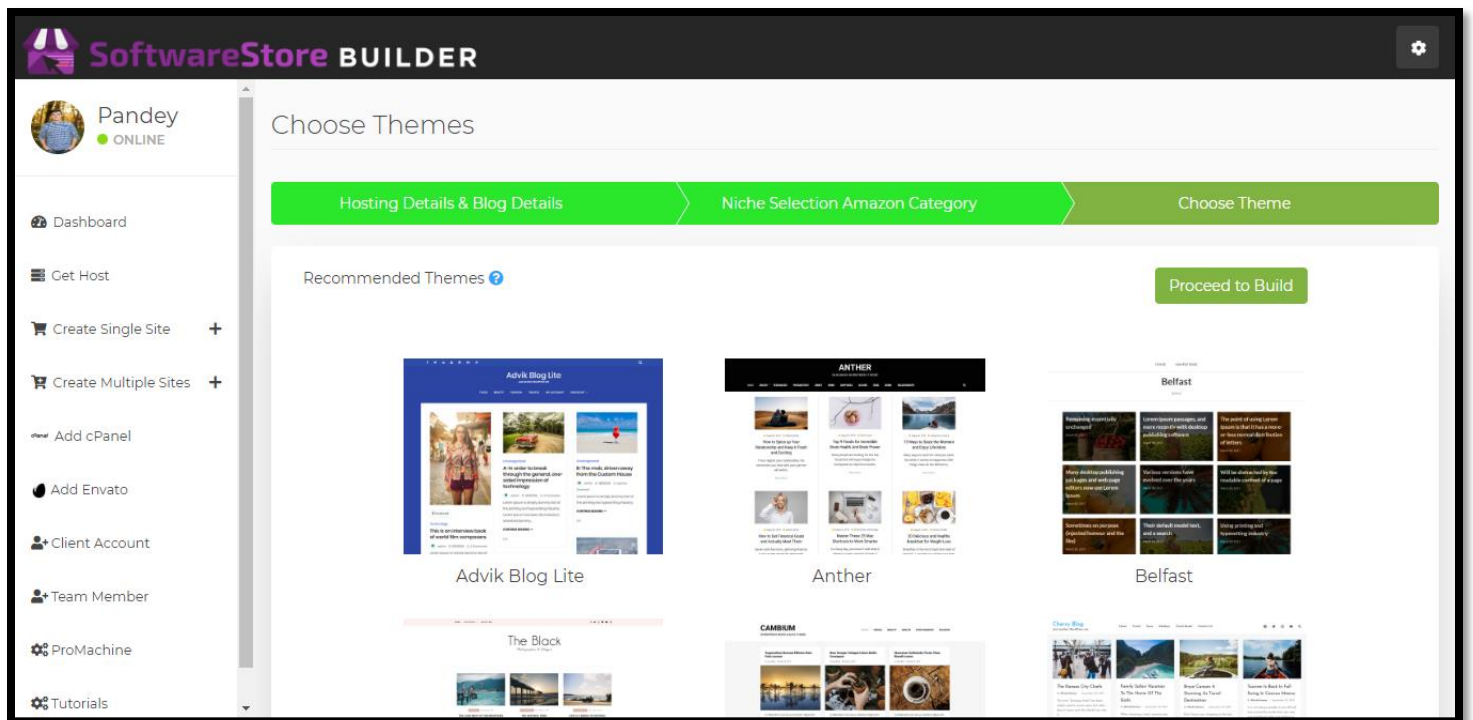

Choose a theme:

Click on Choose Theme to choose a theme for each of your site. A pop up will then appear where you get to see a number of themes you can use.

You can use the recommended themes. These are themes that are ready to use and no customization needed. If you like none of it, you can select from the Themes, however, you may need to customize it accordingly. Scroll down to the bottom then click on **Proceed to Build**.

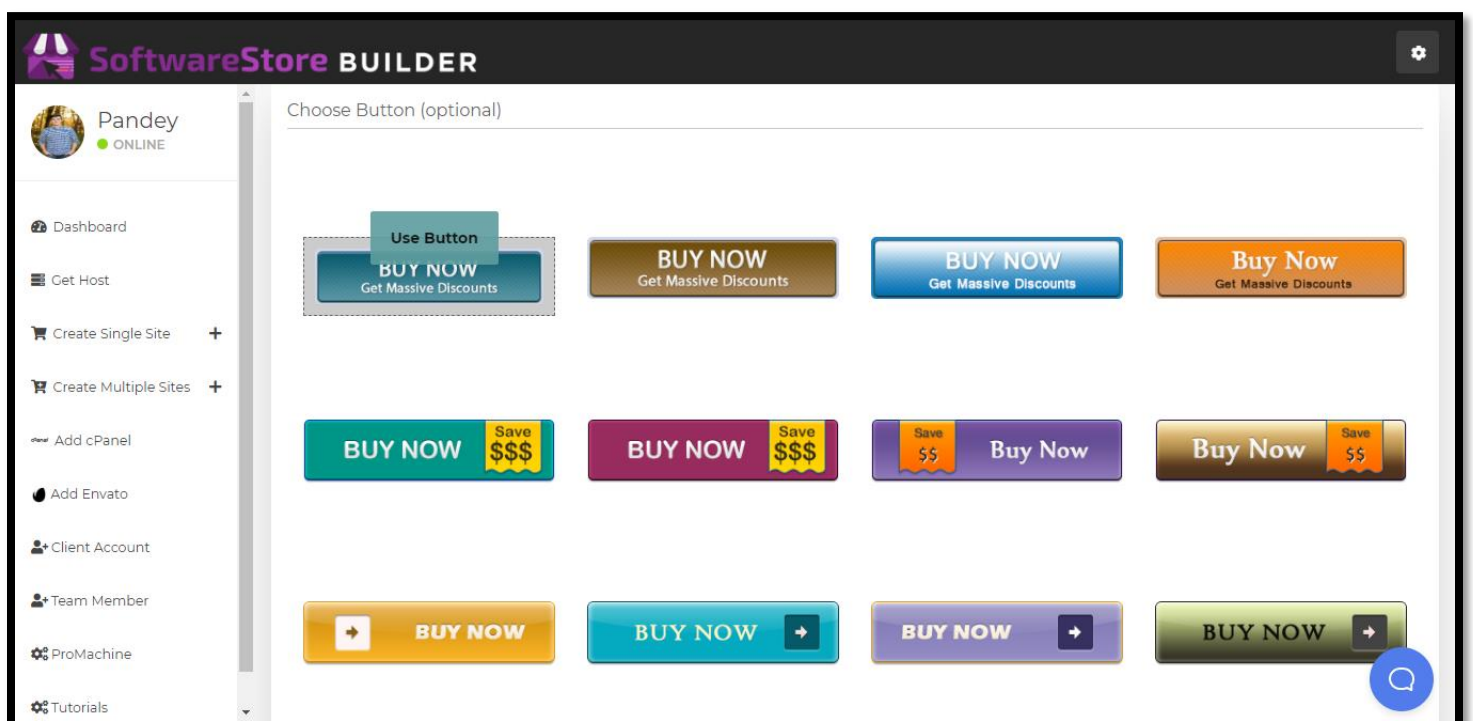

SoftwareStore BUILDER

After choosing a theme, click on **Proceed to Build**.

Now, choose your Buy Now call to action button. It is optional though. After that, just click on Finish.

Now enter the link of your logo file which you want to add in your blog as well as the description or tag line.
